

Who Uses MEPS?

The Medical Expenditures Panel Survey (MEPS) is a national survey of families and individuals and of their medical providers. Data from MEPS have been used to estimate healthcare use, spending, and private and public insurance coverage in the United States.

MEPS researchers include statisticians, social scientists, and health services researchers in universities around the United States; government agencies; and private organizations. In 2019 MEPS users came from the following organizations.
